And, trusting in Jesus, he shall part:
Oh, how can we leave you? Why will you not come?
We'll journey together, and soon be at home.

HE CALLED ME OUT

Tune .- He called me out, 195.

Long in darkness and doubt did I wander from God,
Just the slave of myself and of sin,
And I saw not the hell at the end of the road, Nor the danger I daily was in.

He called me out of darkness into

Oh, the world of the future was nought to my heart.

And the elaims of my God I ignored;

While in no life but this had my soul

any part,
Till I knelt at the feet of my Lord.

When I fully surrendered my life and my all To my Saviour, His ever to be, On my life all the light of His Spirit did fall, And the next world I plainly could see.

HE DIED FOR ME

Tunes.—Ye banks and braes, 121; Monmouth, 9; Song Book, 229.

And can it be that I should gain An interest in the Saviour's Blood? Died He for me who caused His

pain?
For me who Him to death pur-gued?
Amazing lovel How can it he That Thou, my God, shouldst die for me?

Long my imprisoned spirit lay Fast bound in sin and nature's

night;
Thine eye diffused a quickening ray;
I woke! the dungeon flamed with light! My chains fell off, my heart was

free, I rose, went forth, and followed.

well; numbers attaining to positions of trust and

sponsibility.
The Social Work has developed immensely of ate years, alike in effectiveness, facilities, and scope. There are seventy Institutions for men and women. The Metropole in Sydney, erected as a Memorial to the late General, is probably the largest of its kind in the world. It has accommodation for about seven hundred men. Owing to the fact, however, that the municipal authorities have required this building, a new Metropole is to be erected in the very heart of the city. It will be from eight to ten storeys high, and will contain a separate room for every man who lodges in it, thus doing away with the old dormitory system. There is also a large William Booth Memorial Home for men at Melbourne. The Melhourne Hospital has become one of the foremost Tratientions in the city.

A considerable Prison-Gate Work is also car-ried on, and several Army Officers have been appointed as regular Prison Chaplains.

MINISTERING TO THE TROOPS

In Northern Queensland a good work is in progress amongst the Kanakas, the coolies from the South Sea Islands who work on sugar plantations. At two settlements the people them tions. At two settlements the people themselves have phill Halls and meetings are regularly held there by Army Officers. One of the Settlements goes by the name of Salvation Flat. Wherever possible The Army tries to influence the aborigines, and at Kalgoorlic we have a home for black girls.

Since the outbreak of the war The Army has been well to the front in ministering to the Australian troons.

Australian troops.

Many of our buildings have been dedicated to the use of the military, and in all State Centres a "Soldiers' Resi" has been opened. Here the men can get food and lodging, write letters, play games, etc., and that they appreciate these Resis is proved by the large number who patro-

nize them.

A number of Salvation Army Officers have been appointed as Military Chaplains to both the home and overseas forces. Lieut-Colonel McKenzie was with the Expeditionary Force which landed at Galipoid, and ministered to the needs of the men under the hottest fire. The king has honoured him by bestowing upon him the Military Cross. Major Orames and Captain Congdon are also with the overseas forces now. In the Homeland are ten other Chaplains, the Senior Chaplain being Lieut-Colonel Mucht Senior Chaptain being Lieut-Colonel Knight, who holds the military rank of Colonel.

Five nurses have also been sent to nurse the

wounded in military hospitals, and a Motor Amhulance Unit, with Salvation Army drivers, has been given by Salvationists of the Commonwealth. Four of the cars are at the front and the other two are at Melbourne and Sydney, where they are used to convey returned wounder soldiers to the hospitals

On the whole, it may be said that the work of The Army is progressing most satisfactorily in the Land of the Southern Cross, and that the number of Soldiers is constautly increasing.

The Army is respected and practically assisted by all classes, and in very few countries are the people so, generous towards our Work as those in Australia. This will be crident when we state

that the Self-Denial contribution this year amounted to \$198,000, the total population being under five millions.

Under nye millions.

Official recognition is no less generous. At a large gathering in Melbourne, recently, the High Commissioner for Australia declared that in his opinion The Salvation Army had placed civilization under a debt of gratitude.

LONG AND INTERESTING VOYAGE

The voyage of Colonel and Mrs, McMillan from Melbourne to Vancouver-occupied twenty-four days. They eame via New Zealand, stopping off at Auckland for a short time. Here they were met by Lieut-Colonel and Mrs. Powley (their successors, by the way), and taken on a tour of inspection of The Army institutions on a tour of inspection of The Army Institutions in the city. They were greatly impressed with the variety of Army operations here, considering the size of the town. Besides a thriving Corps work, there is a Rescue Home and Materially Hospitall, a Prison-Grate Home, a Workman's Hotel, an up-to-date People's Palace, a Home for the children of solidiers killed in the war, and two Institutions for Inchrintes, situated on islands in the bay.

on islands in the bay.

Their next place of call was the Fiji Islands, Their appearance in the streets of Suva, the capital, created much interest, and curious crowds followed them about everywhere. Shortly before Commissioner Hodder, Territorial Commander of New Zealand, had visited the place, with a view to investigating the possibilities for The Army communing its work there, and some of the natives thought that Colonel and Mrs. Methods the street of the contract of the Millan were the pioneer Officers, and asked them-when they were going to bring out the big drum.

Another interesting place of call was Honolulu. Another interesting place of call was Honololu, in the Hawaiian Islands. Their arrival here also caused a flutter, for it seems that the local Soldiers were expecting a new Officer and his wife, from the States. The Soldier who first caught from the States, The Soldier who first caught expected them. a Chinaman, by the way, camerushing up with warm words of welcome, dancing about excitedly, and calling out: "Here they are—here they are!"

He was quite disappointed when he learned that they were not the expected Officers. He led them, bowever, to the Metropole, where they met Ensign Nielson. Later on they went out to the Manqa Children's Home, where they met two former 'Canadian Officers, in the persons of met Ensien Niclson. Later on they went out to two former Canadian Officers, in the persons of-Adjutant Sabine and Captain Payne, who re-quested the Colonel to convey their greetings to all old Canadian friends.

The children at the Home sang some plaintive. Hawaiian songs in honour of the Colonel's visit, and the Girls' Band played very nicely. Before leaving Honolulu, the Colonel met a number of. Officers, the most cosmopolitan group one could and in any one spot. The nationalities represented included American, Korean, Japanese, and Portuguese.

Portuguese.

At last they arrived at Victoria, where they were delighted to meet many old-time comrades, including Birgadier and Mrs. McLean. The Colonel, at any rate, felt that his feet were once more on his native health. They came straight through to Toronto as quickly as possible.

IMPRESSIONS OF TORONTO

Asked as to his impressions of the Queen City, after twenty years' absence, the Colonel said that he failed to recognize it. Nearly all the old familiar landmarks have disappeared, and huge modern structures have taken their place. The tremendous growth of the city, too, has astonished him. When he left the por lation was scarcely 200,000; it now nutabers close on half a million.

Three years later, he was appointed the Secretary for the Colony of South Australia, and later became Assistant Field Secretary for the later became Assistant Field Secretary for the whole of Australia and New Zealand, which were then united in one Territorial Command-Eventually he became the Head of the Austra-lian Field Department, which position he has held for the last twelve years.

THE earliest recollections of Colonel John McMillan, the new Chief Secretary for

Canada East, are of The Army and Sal-vation Service. He was only eight years of age when his parents became Officers, and shortly afterwards, he was duly installed as a "Little Soldier's Lieutenant."

EARLY SERVICE IN CANADA

Mrs. Colonel McMillan is Australian-born, and has done excellent service in various capacities in her native land. She has been a Field Officer, in her native land. She has been a Field Officer, Resene Officer, Divisional Secretary, and Editres of "The Young Soldier." Latterly she has exer-eised an able supervision over the Home League in Australia, of which she was National Secre-tary. She was married to the Colonel in 1901.

During the twenty years that Colonel McMil-lan has spent in Australia he has seen the work of The Army go forward with astonishing rapidof The Army go forward with astonishing rapid-ity, and, in speaking about it, he grows enthusias-tic. Some idea may be had of the responsibilities falling on the Field Secretary when we state that there are no less than 1,126 Corps and Outposts in Australia. The Australian policy, he says, has in Australia. The Australian policy, he says, has been to develop the country districts, making each Corps a centre from whence a number of Outposts can be worked. This is really the only way hy which the scattered population of the immense backblock areas can be reached.

A lew years ago Commissioner Hay set on foot a comprehensive scheme for the erection of small packblock Halls. I ness are built right in the bush, often in places where no other houses are in sight, and a visitor would wonder where the congregations come from. Whenever a Salvation Army Officer visits the locality, however, and announces a meeting, the people drive in from miles around. A flourishing funior Corps, with an attendance of from lorty to fifty, is also to be found at some of these little

places in the bush. This work necessarily involves much travelling on the part of the Austratian Field Officers, and oftentiones tests their resourcefulness. As many of the bush Corps are many miles from any railway, the Officers have to journey on loot, on horseback, by buggy, or cycle, as opportunity

Flashes From Niagara Camp

By G. L. P.

Ever since the inauguration of the summer's work among the boys in khaki the camp here has been in a continual state of change. Camp Borden has claimed a number of battalions, while several have gone overseas. Among the number that have sailed for the Old Land was the 116th. Quite a number of the men were Salvationists.

Bandmaster Graves, of this battalion, and others of the band will al-ways be remembered for the splen-did srand they took. They never failed to witness a good confession. We saw them entrain and committed Whalever kind of household a them to God for safe-keeping.

The 120th have left us, with some good live Salvationists. Comrades Hamilton and Wellborne are missed by us. They stood to their guns hravely, and always had a present, personal testimony.

The 215th Battalion is the latest aequisition to the camp. Quite a squad of Salvationists are among the boys. A number of them lost no time in presenting their intro-duction cards. Needless to say, they received a whole-hearted welcome. Brantford and Orillia Corps are well represented. We hope to chronicle some stirring meetings during the coming weeks.

Camp life is full of interest. We cross the path of men of all classes and temperaments. Here are three typical eases: "I have seven brothon active service, and my wife has four in the navy. I had to be in it. So I sold out my business, and re I am doing my hit," said N-He is a typical Britisher. No, he made no profession; he was one of the many. His clear, bright eve and manly figure, stamped him as one out of the legion who, at duty's call, are willing to lay down their lives if needs be. An opportunity came to speak a few words of counsel, which left him to ponder over the larger and more vital question of his soul's need.

"We're off to-night, sir." I turned to the speaker. He was hut a stripling of a lad. His battalion was leaving for the Old Land. We were soon in conversation. Yes, he used to frequent The Army in the days before Canada became his bome. A few moments of heart-talk sufficed to unravel a sad tra-gedy in his life. "You will write to your mother, won't you?" I said: "I ain't got no mother, sir." he replied. Drink killed ber, thirteen years ago. She drank herself to death. Dad's a drunkard, too, I have only two sisters. I came to Canada to get a start in life. I want to be a good man. Yes, it is hard graft in the lines, but I prays to God, and 'E 'elps me." I felt irresistably drawn out to him; a mere ladstruggling to gain the ascendency, amid the tides of evil which ever flow around him. With a clasp of the hand and a prayer we parted. Perhaps somewhere in France this young life may be claimed as part of the sad toll of Britain's price of freedom.

HOUSEHOLD WRINKLES

'N almost every paper or magazine one picks up nowadays there are advertisements urging its readers in the most flowery language and convincing manner to try and test the latest discovery—"A Cure for Wrinkles." Some declare that

"Household Wrinkles" is our topic. and, having come, it is to be hoped they will not disappear and be forgotten in a night, but prove to be so useful and practical as to remain in our minds and homes always.

woman rules, large or small, with a family few or many in number, there is no doubt as to her always finding her hands full with one thing and another, and any mortal thing that may lessen that labour, and relieve her heart and mind, in order that more attention can be given to higher and nobler things, certainly ought to be passed on.

The Home League exists for the purpose of enabling women to help each other, and to Iry in every possible way to lighten each other's burdens, and so cheer one another on the journey through life's prob-

lems and perplexities.
With this idea in mind, the following "Wrinkles" have been gathered from many sources. Truly, they are a "mixlure," and some of them may already be familiar; nevertheless, it is affirmed that many have proved invaluable in saving precious time and labour, and, what more important, the patience of many an nver-wrought wife and mother.

Shall we call No. I a "Wrinkle" or a "reminder," of how important a matter it is that long lace curtains should be turned in and stitched down before they are used at all? It does not take many minutes when they are new, yet how few attend to this little matter, and, after one or two washings, sometimes nearly a quarter of a yard of threads are hanging from the top. It looks bad, and every time they are washed it becomes worse, rendering the curdrape satisfactorily, and making the owner wish again and again that she had taken these steps in time, and so have saved endless confusion.

In helping to make a bed lately for a sick person, the wool mattress was noticed to be badly discoloured with iron mould, though, apart from this, in good condition. When remarking upon the matter, the good housewife said, "Isp't it awful? But I cannot afford the felt covers." What a pity that she, and many others, had not remembered that an old rug, disused coloured tableclothes, an old blanket, or even sheels of thick brown paper, would do almost as well-anything to save direct contact with the wire mastress, because the places marked by holes. and bathe the eye in salt and water. Quantity-one small teaspoon of salt to a pint of lukewarm water. Batbe morning and evening. Tried, and found a perfect cure.

To Wash Silk Handkerchiefs

Make a warm lather with white curd soap, and squeeze a very little water, and roll up tightly in clean cloths. When nearly dry, iron between the folds of linen. The iron must not be allowed to touch the silk, or the colour will be spoilt.

To Clean Tarnished Brass

A new and very satisfactory use for lemons is to cut them and rub tarnished brass. Rub and let juice remain on for a short time, then remove with a damp cloth, and you will be pleased with the result so easily oblained.

A Cough Cure

An excellent cough cure, which will save many a doctor's bill, and which can be made at a very small cost. Precure a stick of Spanish liquorice and half a pound of linseed (whole). Break the liquorice up into a saucepan with a quart of water, and add the linseed, and let it boil until the liquorice is dissolved, then strain and sweeten to taste. Squeeze the juice of a lemon into it, and then bottle it. Give the patient an egg-cupful before going to bed, and it will work wonders.

Miscellaneous

A few drops of oil of favender put into a basin of hot water will give a pleasant perfume to a room, and Wipe the grease off plates, dishes, and knives with newspaper, and use this for lighting the fire. Many a cold has been prevented

from developing by smelling cam-phor freely when the cold first comes on. A damp wash-leather is the best

and it will last longer and bristles keep firmer than if left on its back. One pound of meat to a quart of cold water is the correct proportion to use in making soup. It should be allowed to come to the boil slowly and be well skimmed.

If the floor under the bed is covered with earpet, then lay over this a enver of this oileloth, which can be wiped over with a damp cloth to remove the dust.

A Chapter on Stains

It is hard for even the housewife of large experience to remember exactly the simple agents for removing stains. Here is a list which will be found useful to hang in the

laundry. Ink Stains-Soak in sour milk. If a dark stain remains, rinse in a weak solution of chloride of lime. Blood Stains-Soak in cold salt

on a coarse fabric, dissolve by salur-ating with turpentine; use alcohol if on a fine fabric. Sponge with ehloreform if a darkening is left by the turpentine. Be very cautions not to use either the chloroform or turpentine where there is fire or artificial light.

A Splendid Furniture Polish

Procure one ounce of heeswax. 1/2 oz. Castile soap, one pint of turpentine. Pare the soap and was very finely, place them in a quart hottlea thoroughly clean one-and pour the turpentine upon them. Set the hottle aside for twenty-four hours; then thoroughly shake, so as to assist in melting and mixing the con-tents. Next day, shake it again in the same way, and afterwards fill up the bottle with water. Shake very thoroughly once more, and set aside.

Next day the liquid should be of the consistency of a thickish cream and ready for use. For oak, and other dull-wood articles, a little lin-seed oil should be used. A very small quantity should be applied at a time equally all over the piece of turnire with a flanuel, and vigorously rubbed until the oil is absorbed by the wood and has left no stickiness on the surface. Then polish with a dry, elgan duster.

A DAY OF VICTORY

On Sunday, Aug. 6th, at Halifax II., we had some very interesting meetings, led by our Continating Officer, Adjutant Hurd, In the afternoon we lield our meeting by the Eggpond; many stood by and listened to the service.

The trient's meeting was a time of Pentecost; when the power of God was felt, and many hearts were touched by His convicting Spirit; and, at the close, we had the joy of seeing five precious souls coming to the Cross and claiming victory. Aug. 26, 1916

WAR PRISONERS

MEETINGS CONDUCTED IN SWISS VILLAGES BY COMMISSIONER OLIPHANT

A very pleasant change in my own work has been to run up to the various villages where the British prisoners of war are billeted (writes) Commissioner Olinhant).

During my visits to the sick, wounded, and paralyzed, I was requested on all sides to give them a week-end, and so, accompanied by Brigadier Jeanmonod and Major Flauswirth, and the Vevey Band as well as a group of Songsters, we visited this lovely Alpine district, where our French, Belgian, and English friends are interned.

The first stop was at Rissinieres, which boasts of the biggest chalet in Switzerland with 113 windows. The village is a little diamond of beauty, set in a fresh and green pasturage. It was touching and yet natural to see how the village people gatherest round The Army Flag and welcomed the wounded soldiers into their midst as comrades and brothers.

The meeting had to be conducted in two languages, and as the shadows of evening passed over the pleasant scene we found it quite natural, with our thoughts in Homeland, to sing:-

I think when I read that sweet story of old."

And no one who took part in that meeting will forget the softened feeling which suffused the faces of the British soldiers who took part in the singing of that immortal

nemn.

The whole of Sunday was spent's in visiting the villages below Chateau d'Oex and doing what personal good we could to the British visilors. In the afternoon we were at Zweisimmen, where, in a beautifully decorated sawyer's shop, our French and Belgian friends listened with the playing of their national airs,

truths. Evening found us onec more at a se Chatean d'Oex, aiter a long pro-gramme of meetings small and greet, and of continual marching and effort to spread the light and liberty of Salvation.

A Swiss pastor saul to one of us afterwards: "Up to a certain point?; I was able to take part in the meet ings, but when those scores of Brisish soldiers sang, 'Onward, Christian Soldier!' and I remembered what they had gone through, my emotion overcame me."

And so after a prayer meeting, and end of prayer, but full of faith and effort, when souls made their decision for life or death, we closed one of the most memorable days in the annals of the history of The Salvation Army in Switzerland.

WAR CRY

Keep the Fires Burning

The war drags on into its third year, still growing more horrible in the intensity and ferociousness of the fighting, and the deepening of international hatreds. The very international hatreds. The very immensity of the conflict staggers and perplexes mankind, and many are seeking from all manner of sources answers to mind. Its it was that arise in their mind. Its it has the conflict and the conflint and the conflict and the conflict and the conflict and the con

That some people are getting bopelessly mixed up is evident from the reported declaration of a street corner preacher in Toronto. The Kaiser was referred to in the Bible, Kaiser was referred to in the Bible, he said, heing described as a king of short stature, with grey bair and a withered arm. His fate was prophe-sied likewise, for he would be sent

That the Bible does throw light upon present world conditions no one will deny, but it is a highly one will deny, but it is a highly dangerous experiment to start to interpret its prophecies to fit in with, our own ideas, and to teach men so. It simply leads us into a bewildering maze of foolish fancies. Let us steer clear of this rock, and humbly seek the guidance of the Hoty Spirit seek the guidance of the Holy Spirit in attempting to understand what God has said regarding His plans and purposes for this world. "How-

beit when He, the Spirit of Truth, is come, He will guide you into all truth . . . and he will show you things to come." things to come."

And undoubtedly the greatest lesson He would have us learn in times like these is not to be over-curious or fearful-of what is going to happen in the future, but to keep the pen in the future, but to keep the love of God burning brightly in our love of God burning brightly in our souls, so that we can comfort those that mourn, help the distressed and lead souls into the light. A warn-ing to God's people, which perhaps; has special reference to these days, is contained in the verse: "And he cause iniquity shall abound the love of many shall wax cold."

Crowds Picking Up-Good Times

Every week-end is becoming brighter at Edmonton If. God is with us in great power. Sunday night, Ang. 6th one of our faithful Soldiers, Sister Mrs. Ward, took the lesson, and spoke very feelingly on "The Compassion of Chrish." We felt Mis Presence very near. A Senior and Janior Soldier were enrolled under the dear old Fiag, and after the enrolment a number of ort boys and girls stood in a group around our new Soldier and sang boys and girls stood in a group around our new Soldier and sang very sweetly, "Dear Lord, beneath this Army Flag we make our vows to Thee." Their singing was thoroughly enjoyed by all.

While Lieutenant Pasmore is on furlough, Corps Callet Amile Holmes (from No. III, Corps) is assisting our Captain, and is endear-ing herself in us all by her enthus-iasm. Our attendances at all the nasm. Our artendances at an interesting up. A back-slider returned to the Fold during a week-end meeting, and is now giv-ing a good testimony to victory over sin. VICTORIES CONTINUE

Victory still continues at Orange-ville, We rejoice with the angels in Heaven over seeing three souls re-turn to the ever-mereiful God on Sunday night, Ang. 13th. We are having good times; God's Presence is felt in every meeting; and deep conviction prevails. The testimonics given by different comrades are vietory every day over sin, the flesh, and the flevil. God's grace is sufficient. We are believing for greater victories. Every comrade is eager for the Salvation of others—W. H.

The following is a private letter received from Major W. J. Richards, General Secretary for the Dutch East Indies, and eddest son of Commissioner Richards. He had taken a party of Native Colonists on a Salvation Army Colony in the Celebes, and the letter throws are a vivil light on the country and its conditions that we make no a polegy for reprinting it—Editor.]

And how mear the truth were those meditations.

It appears that sickness had suddenly appeared in Born very early that morning, and it was feared that is was cholera. There is, only one doctor—a military doctor—for the whole of Falo Valley, and he was several miles away, so the only person to whom these matives can turn to at such a crists is The Salvation Army Officer, and nobly do our devoted band of comrades plunge into the conflict with disease and death the conflict with disease and death in order that they may rescue the lives of their brown brothers, and later bring them to a saving know-ledge of the truth and eternal life.

Thus, this Captain, with the small band of natives that accompanied him, attended to five cases, of which two died almost before they could he put under treatment whilst he ne put un

In the meantime I heard the tramp

The Gourtes has lately been laid out as garden, so that when the facer's Quarters has lately been laid out as garden, so that when the rained out the facer to the facer so might be land. Our warriors utilized the soften earth of the prepared helds in which to implant their weapons, thus making a vertiable garden of spears, the sun reflecting the blood-real noists it such a manure as to After a cup of tea I was soon at work inspecting the books. I sat by the window, through which, at intervals, I looked upon new and interred points in such a manner as to vividly remind one that it is less than vividly remind one that it is less than a dozen years since the whole coun-try-side was ruled by the power of their spears and swords, before the white man had conquered them with

cannon and shot.

First the headmen came solemnly First the headmen came solemnly into the house and were introduced to me by the Captain, and, after the inertiable palwer, they issued their instructions to their waiting followers. Presently up stalked various members oil this proud, stalwart mountain race bringing their offerings of fowls, eggs, sugar, pepper and the proposition of the proposition of

carted warriors.
The time for the meeting draws The time for the meeting draws near; our armed litends assemble in their serried ranks and surround the Capiain and myself, Away we march to the sonorous tones and the measured tread of our sturdy bodyguard to the trysting place; there to be met by hundreds of other natives lifting

their voices in sengs of our Redeem-er's praise.

Who can describe that meeting?
Certainly I cannot do it justice!

The native Hall, built upon poles, was jammed—I felt the bamboo floor swaying beneath us the ground below was packed with a sweating, dark but eager mass of humanity.

What a catastrophe it the floor gave way! But this kind-of native work is to be relied upon, so all-goes well. On every side great crowds pressed nearer to hear the Gospel news. The people from the surrounding districts were gathered togethered—the various chiefs sat on mats of honour various chiefs sat on mats of honour before me; the singing was powerful; the grunts of approbation to the Gospel truths, as they were made clear, were overwhelming, while the moments of prayer were the only quiet intervals throughout the night.

quiet intervals throughout the night.

At the final appeal as to who
would become Christians, the whole
of that mighty assembly—chiefs,
men, women, and children—rose as
one, whilst outside could be heard
the brandishing of weapons and the
crash of arms as they joined in the
great shout, "We will follow Jesus"
"We will hecome Christians"
Words fall me to give any illea of
the wonderful thrill that passed

the wonderful thrill that passed through my own soul—yea, that passed through every soul in that vast congregation at that memor-able moment. It reminded me of the Biblied account of that great shout that rose to Heaven from Mount Carmel when the children of Israel cried out in answer to the sacrificial fire that fell upon Elijah's altar and consumed the offering: "The Lord He is God;"

The meeting closed. I retired for a little refreshment. Great procesa little refreshment. Great proces-sions, even in bigger numbers than in the morning, were bringing in dainties and refreshments from the town of Bora for the great feast to commemorate the occasion, and when I returned to the scene of feasting, long and eloquent prayers were being offered up to the Lord hefore a start was made upon the good things before them. The cus-tom here, apparently, was brothers first, as they attacked the native viands in relays: the sisters coming

last.
In the meantime the sisters, probably having heen wise enough to get a little lood before the meeting, get a little lood before the meeting, gathered into groups in accordance with the different villages they represented, singing the Salvation Songs they had so recently learned—the volume of which was hare intereased by the deeper tones of the hrethren as they finished their portion of the feast. First one group and then al-other, in proper Welsh Eisteddfod style, which gave full scope for na-tive idiosyncrasies in music, rethm, style, and poety—it was entrancing and the only thing likely to stir my blood more is to hear a great crowd of Welshmen singing "Land of My Eathers'
